YOUR ONE STOP SHOP FOR EROSION CONTROL PRODUCTS

ECOLINKS UNITIZED EROSION CONTROL SOCKS

These filter “socks” are 8-9 inch in diameter and 16 feet in length. They are made of tough, high visibility safety green polyester filter fabric and filled with clean debarked virgin hardwood saw-mill chips. We coil 8 16-foot units on a pallet. We stretch wrap a tight package for transport, unloading and job site distribution. You can pick them up at our nursery or we deliver in either a straight truck containing 5 to 8 pallets or by the semi load.

Wholesale Price 1.50 per Linear Foot = 24.00 ea.

Free Cedar Rapids Area Delivery on 5 Pallets - Free IC/Waterloo Area Delivery on 8 Pallets

Bio Cell Filter Media

Finished product. Ready to load into your heavy duty dump trucks. The standard Ever-Green mix which has been approved by Wayne Petersen - Urban Conservation Program Coordinator IDALS-DSCWQ and meets the design standards of the Iowa Stormwater Management Manual. 75 percent washed concrete sand, 15 percent topsoil with at least 2 percent organic matter, and 10 percent additional organics in the form of decomposed hardwood bark mulch. Our mix can be adjusted to meet your needs.

Wholesale Price 50.00 per cubic yard

Additional message to Engineers, Architects, Contractors, and Municipal Customers:

Ever-Green Inc. is the ONLY processor and distributor of Playmate® Play Area Woodchips®. The “Gold Standard” in loose fill safety surfacing material.

Our product is ALWAYS made from clean debarked virgin hardwood and regularly tested for impact attenuation and wheelchair accessibility. Stop by our nursery to pick up by the cubic yard or we will deliver it to you in either a straight truck or semi load with walking floor self-unloading trailers. Playmate® Play Area Woodchips® has been used on thousands of playgrounds across the Midwest!

When your thoughts turn to landscaping we ask you to remember...

*“It just makes good sense to buy your
mulch from the people who make it”*
